VS Fibmer

Let's create memories that will last a lifetime and beyond.

Wedding is something which is special not only for the bride and groom but for all those involved with these two. We as Photographers stand there, observe every moment, every second and capture the feelings and emotions of the moment. You may forget us but our work will never let you do so. A wedding may last for just

2-3 days but the work we deliver will make you feel like the wedding is still on the go. You will see happy faces, you will see emotions, you will re-live all those moments whenever you look at those pictures, that's a promise we make. We believe in making memories instead of just capturing pictures of all the 'rasams' and 'riti rivaz' in a wedding. Our aim is to not only to collect all those precious moments of the bride and groom and their entire family but to present them in such a way that, years from now when they see those pictures and video's they can feel exactly what they felt in those moments.

Memories are all which we live for and we promise you to deliver one more reason to smile.

And that is why I do what I do.

I live for all these small little moments,
that make my heart

full and this camera that I hold,
gives me a chance to make others feel the same way.

WHY US

- We believe in delivering Premium Quality content.
- We don't have any inhouse Photographer. We believe in hiring Freelance photographers from pan INDIA.
- We always use latest camera.
- Our vision is to create lifelong memories throughout our cameras and talented photographers.

Hard working person, really liked your work, you are someone a person can rely on for his/her work. I recommend everyone to give them a chance to shoot your weddings and infact every event.

A romantic scene featuring a man in a white shirt and grey trousers lifting a woman in a brown dress into his arms. They are standing on a green grassy hill, looking up at each other. A large, leafy tree stands to their left, and a smaller tree is visible in the background. The sky is overcast and grey.
